Amsterdam, The Netherlands – April 27, 2015.

Trader Media East Limited (the "Company" or "TME" or "Group") announces that it has sent its Annual Report 2014, and Audited Consolidated Financial Statements for the year ending December 31, 2014.

A copy of the Company's Annual Report 2014 containing the audited consolidated financial statements is available on the Company's website at www.tmeast.com.

CHAIRWOMAN'S STATEMENT

2015 Overview & 2014 Financial Results

2014 was also a transition year for TME in all respects. We continued to grow our online revenues and shifted our revenue composition towards digital. In 2014, nearly 1/3 of our revenues came from our web-sites and mobile services (mainly from two core platforms of irr.ru and job.ru).

Due to global trends and increasing internet usage in Russia & Regions and CIS, we did a lot of optimization and restructuring of our operations. Thus, TME Management has a vision to become a pure "Digital Group" together with a competitive regional franchises within coming years.

Moreover, we continue to improve our online products and offer best usage experience in all segments in year 2014. Product quality is an important factor to succeed in digital transformation. In this respect, we continue to invest in our technology and human resources.

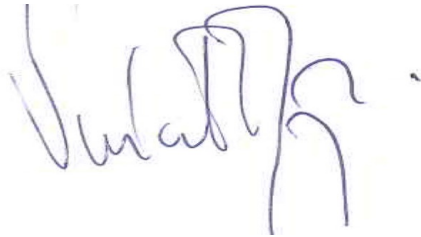

TME Board of Directors is very committed to the current transition plan and thinks that the healthy transitioning of the company is a great opportunity for the shareholders to re-gain value in coming years.

Dividend

TME Group's policy is to re-invest cash generated in the business. Consequently, TME Board of Directors is not recommending a distribution.

Outlook

In 2015, we are expecting highly competitive market conditions in Russia and the CIS. We are growing aggressively in on-line due to initiation of new product and services in the digital market. We are also planning significant marketing investments in Russia & Regions and CIS, to increase our C2C audiences.

MESSAGE FROM THE CEO

Having joined the Company in May 2014, I have accelerated processes started by my predecessor aimed at transition of the Company to a pure **“Digital State”**.

Last year, the share of revenues from digital sales reached 39.8% as it was planned.

One of the major challenges in this process is to maintain great legacy of our newspaper brand in our Internet Projects.

For years, *“Iz Ruk v Ruki”* was a leading expert brand in “Real Estate” and “General Classified” in Russia. Strong regional presence also is a part of our heritage. We have to take it all to our Digital Future.

Current market developments saw significant slow-down of the Russian Economy. That was particularly true for print advertising industry.

Our newspaper business e.g. declined over 42.8% in USD terms, while our digital sales remained robust, increasing by 1.6% in local currency terms (LCY) and declined by 15.2% in USD terms. Looking back at similar situations of 1998 and 2008, TME projects emerged as winners from those times. I believe that the optimization and transition to a pure Digital State is the first step in this direction.

The outlook to the future is bright as we look to complete this transition by mid-year 2015.

Trader Media East Limited (“TME” or the “Company” or the “Group”)’s directors present their report and the audited financial statements for the year ended December 31, 2014.

The directors are responsible for preparing the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by European Union. The financial statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

International Accounting Standard 1 requires that financial statements present fairly for each financial year the company's financial position, financial performance and cash flows. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's “Framework for the preparation and presentation of financial statements”. In virtually, all circumstances, a fair presentation will be achieved by compliance with all applicable IFRSs. However, directors are also required to:

- properly select and apply accounting policies;

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the company

and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The maintenance and integrity of the website is the responsibility of the directors, the work carried out by the auditors does not involve consideration of these matters and accordingly, the auditors accept no responsibility for any changes that may have occurred to the information contained in the financial statements since they were initially presented on the website.

The directors are also required by the Disclosure and Transparency Rules (DTR) of the United Kingdom Listing Authority ("UKLA") to include a management report containing a fair review of the business and a description of the principal risks and uncertainties facing the Group.

Each of the directors, whose names and functions are listed on page 8 confirm that, to the best of each person's knowledge and belief:

The composition of the Board of Directors as of December 31, 2014 is as follows:

- Mrs. Vuslat Doğan-Sabancı as Chairwoman, Senior Executive Director;
- Mr. Turhan Cemal Beriker as Vice-Chairman & Senior Independent Non-Executive Director; and

Directors' Interests

No options were granted to or exercised by any director of TME in the period between December 31, 2014 and the signing date of these audited financial statements. None of the directors had a material interest in any contract of significance to which the Company or any of its subsidiaries was a party during the year.

Policy on Payment of Creditors

It is Group policy, in respect of all of its suppliers, to settle the terms of payment when agreeing each transaction, to ensure that suppliers are made aware of the terms of payment and to abide by those terms. The average number of creditor days in relation to trade creditors outstanding depends on each country where we generally apply local practices.

Financial Risk Management

The Group finances its operations through the generation of cash from operating activities and from bank borrowings. Liquidity risk is managed through forecasting the future cash flow requirements of the business and maintaining sufficient cash at bank balances.

Principal Risks and Uncertainties

The following risks and uncertainties could have an effect on the Group's performance. As at the date of this report, the Board considers the risks described below as the principal risks facing the Group. The Group has a risk management structure in place that is designed to identify, manage, and mitigate business risks. This forms part of the Group's system of internal control that is described in detail in Corporate Governance. The key risks identified through this risk management process, and how they are managed is detailed below.

General

The Group's activities expose it to a variety of operational and financial risks; these risks are market risk including the effects of changes in debt and equity market prices, foreign currency exchange rates, fair value interest rate risk, and cash flow interest rate risk, credit risk, and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group. As the Group operates in different regions and countries, TME headquarters deal effectively with the coordination of management of different entities.

Risks relating to the Group's Business and Industry

The Total Ads Revenue decreased 33.9%, in which classifieds decreased 43.0%, whereas displays decreased 28.4% versus 2013 figures. Displays share increased in Total Ads Revenue in 2014 to 67.5% in comparison to 2013 (62.4%).

GDP in current prices in 2014 amounted to 71,406.4 billion rubles. The index of physical volume relative to 2013 amounted to 100.6%. Index-deflator of GDP relative to prices 2013 made 107.2%. In 2014 Kazakhstan's GDP increased by 4.3%. Gross domestic product of Belarus in 2014 increased compared to 2013 by 1.6%.

Risks relating to the Group's Financial Condition

The Group is exposed to variety of financial risks due to its operations. These risks include liquidity risk, funding risk, credit risk and foreign currency risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

The Group finances its operations through loan facilities provided by its controlling shareholder, Hurriyet Group, as well as bank loans. Liquidity risk is managed through forecasting the future cash flow requirements of the business and maintaining sufficient cash at bank balances.

Foreign Currency

A high proportion of the Group's sales (81.8%) and operating loss arise in the Russian Federation.

As a result, the Group's reported results in 2014 have been negatively affected by the weakening of the Russian Ruble (RUR) against the US Dollar (US\$) (20.6% on an annual average basis) versus 2013.

Competitive Forces

The markets in which the Group operates are highly dynamic and competitive. The majority of its co-operation is long term in nature and access to the key platforms is critical to the success of the business. This requires sustained investment in technology, capability and infrastructure, which presents a high barrier to entry. However, these factors alone do not protect the Group from competition, such that price competition and technical advances made by competitors could adversely affect the Group's results.

The Group has developed a balanced business portfolio and maintained a steady improvement in operational performance, which together with the establishment of long term customer relationships and sustained investment in technology acquisition, allow the Group to respond to competitive pressure.

Legal Risks

The Group operates internationally and is subject to laws and regulations in a large number of jurisdictions. Combined with this, the large numbers of customers and suppliers to the Group result in a complex set of contractual obligations and a risk of non-compliance with the applicable laws and regulations.

The Group addresses this risk in a number of ways:

- through reviews, advice and opinions provided by the in-house legal department;
- monitoring and reporting of issues by the Internal Audit function;
- internal control processes requiring local and Group management to report on areas of potential non-compliance; and
- controls on the levels of management required to approve proposed contractual arrangements.

Charitable and Political Donations

The Group did not make any material charitable or political donations during the year.

Intangible Assets

Historically, the Group has attributed value to its main trade names, customer database and goodwill in allocating a part of the purchase price paid for its subsidiaries to these intangible assets. These values attributed to intangible assets are referred to in Note 14 to the financial statements.

Purchase of Own Shares

The Group did not purchase any of its shares for cancellation during the year. At present, TME Group had no authority to purchase Group's issued ordinary share capital.

Secretary

Dr. Hakan Hanlı is the Company Secretary since June 30, 2009.
